

CONSTRUCTION NOTIFICATION APPLICATION

Application ID#: _____

The motor carrier who provided you with this document has applied to PennDOT to move an oversize and/or overweight vehicle or combination and nondivisible load on a State Route that is currently under construction by your company.

PennDOT staff will thoroughly review the motor carrier's application and proposed routes. The motor carrier is required to coordinate any movement through construction project areas and to verify the construction contractor's approval for the motor carrier to travel through the construction project area on the specified date(s) at the permitted sizes and weights.
